

Project Lifecycle Phases

The Project Lifecycle Phases associated with the City of New Orleans Recovery Program are defined below.

- ***Planning:*** Project needs further definition, community input, funding, a new location or City Council approval.
- ***Contracting:*** A Design Consultant is assigned to a specific project and put under contract with the City of New Orleans.
- ***Design:*** The Design Consultant investigates the site and available information and prepares the scope for the project, outlines the design criteria and starts construction drawings. The design package is completed in preparation for bidding and procurement process.
- ***Bid/Award:*** Construction is advertised for bids, bids are received and evaluated and a Construction Contractor is selected and put under contract.
- ***Construction:*** Construction begins.
